

Please note that the "Jake Bernstein on Futures" website presents only hypothetical trading results.

Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and actual results subsequently achieved by any particular trading program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk and no hypothetical trading record can completely account for the impact of financial risk in actual trading. For example, the ability to withstand losses or to adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results.

There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect actual trading results.

Please note that the "Jake Bernstein on Futures" website presents seasonal trading results.

SEASONAL TRADING HAS CERTAIN INHERENT LIMITATIONS. NO REPRESENTATION IS BEING MADE THAT ANY CUSTOMER OF VISION FINANCIAL MARKETS LLC HAS ACHIEVED PROFITS USING SEASONAL TRADING. THERE IS NO GUARANTEE THAT ANY SEASONAL MOVE IS LIKELY TO OCCUR AGAIN. SEASON TRADING, LIKE ALL FUTURES TRADING, INVOLVES THE SUBSTANTIAL RISK OF LOSS.
